In 1983, Kar Porselen embarked on this endeavor in a modest ceramic atelier with the intention of becoming a genuine industry stakeholder by providing porcelain tableware solutions. With the goal of inspiring future trends and leading the industry as a pioneering brand, Bonna was introduced in 2014. Since the beginning, our goal has been to provide the best possible accompaniment for a gastronomic experience that is rich in senses, and contribute to overall well-being of the environment and society which in turn promotes sustainable economic growth.

Passionate about bringing the chefs' thoughts to life, we support them in letting their imaginations unleashed as they design, enhance their menus, create outstanding presentations and enable memorable gastronomic experiences for their guests.

Passionate about growing together with our business partners, we provide a breadth of range in high-quality porcelain, vitrified ware, and other complementary offerings made possible by the newest technology and deliver operational solutions to enhance customer satisfaction at all levels.

Passionate about uplifting the joyful moments together with trend-setters and opinion leaders, we collaborate with a wide range of community to distinctively tailor the gastronomic experience from a broader perspective.

INNOVATIVE SOLUTIONS FOR CHEFS

Witness Bonna's acknowledged success in innovation and design

The journey began with the vision to inspire future trends in the industry which is a goal integrated into Bonna's identity for being a stylish and forward-looking brand.

Join us in celebrating Bonna's legacy of prestigious awards across the globe, a testament to dedication in innovation and a pursuit of stylistic consistency that captivate audiences worldwide as a pioneer player in the HoReCa market.

All Over The World: 100+ Countries

Bonna production facilities located at the intersection of Asian and European continents, and Bonna distribution network spread over 100 countries worldwide enable high accessibility and quick delivery to all industry partners.

Save for Tomorrow!

A lifetime commitment to being environmentally conscious

Bonna is dedicated to meet the needs of the present generations while at the same time preserving resources for the future generations. This dedication is among the corporate values, placing integrity at the core, and guiding ethical standards since the foundation of our

company. Our primary strategies to save for tomorrow are doing eco-optimized production in line with circular supply chain management, extending product life cycle, adhering to waste management, and integrating every single employee to sustainable practices.

Recycled Water Consumption

- **80% of the water supply is recycled** on a circular base among the processes (figure extracted for Çayırova Plant only).

Reduced Carbon Footprint

- Commitment to contribute Net Zero movement.
- **Owns 14001** Environment Management Certification.
- **Owns Carbon footprint measurement system** (figure to be released by February 2024).

Eco-Optimized Energy Usage

- **Up to 80% of the total electricity** is supplied by renewable energy resources thanks to Solar Energy System investment (projected for 2024 and integrated for the two plants).
- **100% recyclable paper materials** are used in product cases.
- New vitrified category development with **local sourcing** and **single firing**.
- Further electricity and natural gas savings are obtained by new generation press machines, advanced kiln systems and single firing in selected collections.

Long Product Life Cycle and Waste Management

- Highly durable body and edge-chip resistance warranty
- **Up to 88% nonhazardous porcelain waste** is used in sustainability collections. (Prints, Cras and Ground collections).
- **3300 tons of production residues** (porcelain and related waste) are reused for new production (2023 official figure).

Save for
tomorrow

Cras

Sustainable and Eco-Friendly Products

Clay has a memory. It tells us the exuberant sound of a titmouse that lived in the past, the soft petals of a geranium, the story of a stagnant river. A cycle that ends always turns into soil and clay before it starts again.

With its sustainable design vision, Bonna Cras Collection carries this elemental energy of porcelain. With its amorphous form, each piece in the collection is unique and has an unrepeatable design. It comes from the past, but also belongs to the future: In other words, it is beyond time. And it is as spontaneous as life itself.

* Radix

The Radix Collection by Bonna is a collection of porcelain tableware that is both elegant and mysterious. The collection features a root motif on white porcelain, which is a powerful symbol of the natural world. The root is a symbol of growth, strength, and endurance. It is a reminder that even the smallest things can have a profound impact. The root is also a symbol of connection, both to the earth and to each other. This symbolism is not lost on chefs. They understand the power of the natural world to inspire creativity. They know that the root can be a source of inspiration for their own culinary creations.

Care

The durability of porcelain derives from the preparation process in which it is carefully heated, and its white and pure appearance comes from its natural raw materials. Just like those who expect and show hygienic care and healing attention during hard periods...

The Bonna Care Collections, comes to life with porcelain symbolising health and strength, has been prepared to present different tastes in a hygienic way with its ergonomic and special design. With this special series, bring together both the patients in the hospital and the healthcare professionals who support them with a safe, privileged and attentive taste moment.

Gaia

For the chefs creating extraordinary and exotic flavors, a unique collection with its form and colors: GAIA. Inspired by the creation myths in Far East cultures, we bring unprocessed textures and colors of earth - the source of existence and vitality - to the table. With its exclusive design reflecting the mystical atmosphere of Far East, the GAIA Collection symbolizes the "harmony in contrast". Combining sharp and round lines, matte and bright glaze applications and contrasting color transitions, GAIA offers an exciting background for your presentations.

Gaia & Artizan

Explore the unique art of tea with small and unique teapots. They allow more careful temperature control and while reducing the bitterness that may occur in the flavour of the tea and increasing its aroma. Their shape helps the tea leaves to expand and mix better with water. Now, Bonna Premium Porcelain has a new collection: Herbal Tea Pot Gaia and Herbal Tea Pot Artizan. These new teapots unearth tea's medicinal and spiritual paths and rituals in every brew. Reflecting Bonna's gratitude for the earth and appreciation of luxury presentations, they radiate tea's history with unique colours and a luxurious bamboo handle.

Coral

The Coral series emerges like a plate reminiscent of the enchanting ambiance of the ocean and shores. Drawing inspiration from nature's palette and organic patterns, Coral captures a moment as if plucked directly from the heart of the sea. Each piece mimics the traces of the ocean's waves with its unique patterns. The delicate breeze of nature heralds the beginning of a story that makes the Coral series truly special.

Snell

Our Snell series, which reflects the eye-catching beauty of light refraction with hues inspired by nature, carries the eye colour of mother nature. It decorates your presentations, that become unique with your elegant touches, with its textures and patterns. Bring together the tastes you exhibit freely with nature in our Snell series, where we combine the work of the soil with the transitional lines representing the refraction of light.

Notte

Inspired by the Italian word for “night”, NOTTE takes a privileged place on the table with the strong presence of black: the color for dignity, power and mystery. Thanks to the black glaze application covering the whole body, NOTTE pieces keep all the secrets the chef whispers to the plate; they only let the vivid colors and shapes of the presentation speak for themselves.

Blue Wave

The Blue Wave Collection offered by Bonna is an elegant and evocative series. This collection features a blue wave motif on white porcelain, serving as a powerful symbol of the natural world. The Blue Wave Collection reminds us of the power and beauty of the sea—a force of nature that is both calming and invigorating. The wave also symbolizes change and possibilities, representing the constant ebb and flow of life. Chefs are not immune to the impact of this symbolism. They understand the inspiring power of the natural world on creativity. The Blue Wave Collection is recognized by chefs as a source of inspiration for their own culinary creations.

Calif

Mediterranean: the region of different but yet identical cuisines... We celebrate and embrace it's diversity with Calif Collection to accompany the tastes tying Mediterranean food cultures to each other for hundreds of years. We crown the history and future of the dishes born in these lands, yet again with colors and patterns unique to them.

Luz

Designed to add your personal touch to your magnificent main course and dessert presentations, Luz takes its textured mosaic pattern from digital printing technology that brings a new breath to design. It's time to reflect the magical and unique tones of nature on your table! Inspired by the soil, the main source of life that surrounds the top of the earth's crust, the Luz series will bring the most elegant form of simplicity to your presentations with its abstract colours. The harmony created by Luz, which comes together with the glorious colours of the soil, the life energy of mother nature, will accompany the most beautiful moments of the tables.

Sway

The Sway Collection weaves a tale of rhythmic elegance inspired by the art of weaving. Evoking the tactile sensation of knitting and weaving, each piece creates a harmonious dance of textures. The rocking effect inherent in weaving gives birth to the collection's name, "Sway," mirroring the graceful movements found in dance and music. Craftsmanship and fluidity intertwine in a symphony of style, transforming any dining experience with Sway.

Luca

Bonna presents the bold and assertive Luca collection, for those who seeks a design to accompany the surprising and impressive harmony of different flavors they bring together on the plate. While designing Luca, we were inspired by mosaic pieces that become breathtaking when put together and dedicated this collection to chefs who boldly create a mosaic of flavors by combining different tastes and smells.

*LUCA Collection is made of complementary pieces, can be used in Mix-&Match concept. Comes in 1 pattern and 3 base color options.

Viento

All avenues of Mediterranean region stretch out to blue, and all winds carry inviting aromas of exquisite flavors. We bring the original texture of Portuguese pavement to the background of Viento Collection, and decorated the rest with Mediterranean blue colored patterns each hand drawn individually. Viento simply became the elaborate symbol of a never ending summer on the table.

Vega

The Vega collection has a mystical design that reflects the depths of the universe. Our design is inspired by the mysterious structures in the depths of space. On a dark background, deep blue colored waves and intense white rays come together dazzlingly on the surface of the plate, symbolizing the focus where all the energy in the universe is concentrated. Vega will accompany your perfection in creating presentations and will add a unique touch to the table. Feel this magnificent power that exists in the universe at your table.

Raw

To feel the love and care that goes into a cup, to take time to ground yourself through an object born from the earth, water and fire... Offering beauty combined with functional simplicity, the Bonna Raw Collection wraps your hands with its embossed lines and adds a stylish decorative signature to your kitchen. Thanks to its ribbed design, each piece in the product family is lighter than the products on the market. In addition to the coffee cups designed separately for different types of coffee, the dripper planned for the 360° coffee brewing ritual carries the same design identity. As you stand in this colourful jungle full of life, you will feel your mind calm down with Bonna Raw.

Mix Lab

Mix Lab is designed to be compatible with many products such as cups, mugs, bowls and teapots. During design, ergonomics and aesthetic concerns were taken into consideration. It provides ease of holding thanks to its form. It is made of natural beech wood. The type of wood used has a structure that goes with porcelain products. Mix Lab consists of 2 main parts. The first part is the main body and the second part is the disc section consisting of linear bearings. The bearings in the disc section are compatible with a lot of cups, mugs and teapots, etc. Thus, it can be used in different presentation types. In addition, the easily removable disc is also suitable for soup bowl usage.

Infinityglass

*Infinityglass

Infinityglass reflects the visual delight of glass gracefully. Infinityglass's polycarbonate body, which mimics real glass, is 250 times stronger than glass, ensuring durability and longevity. Its impact-resistant and recyclable structure eliminates the risk of breakage that can occur with glassware at the poolside or by the beach, providing a safe luxury experience.

While being a sustainable choice, it also provides a cost advantage with its material that helps reduce environmental impact in the food and beverage cycle. Alongside its unbreakable nature, Infinityglass retains its elegance and sophisticated form, just like glass. It promises sustainable elegance, enjoying a key role in luxury hotels and catering events.

Product Care

Porcelain Care

- You can safely use decorated, hand-painted, or white porcelain products in ovens, microwaves, and freezers.
- It is not advised to move porcelain from a hot oven to a freezer or vice versa because porcelain is a hard but delicate substance that can break with sudden changes in temperature.
- You should not put porcelain on open fire unless it is designed especially for that purpose. (Example: Eared dish)
- In the case of black marks on the porcelain surface caused by metal cutlery, an appropriate steel cleaner or vinegar can be used to remove the marks.
- Caution is advised not to rub metal hardware with Porcelain while washing by hand or in a dishwasher.
- You should not use metal washing wire and tough scrub sponges when washing Porcelain surfaces.

Glass Care

- Glass material is safe to use in food storage and for hot and cold food. Food can be directly stored or served with glass products.
- Glass is a recyclable material and safe for human health.
- All glass products are dishwasher safe including industrial dishwashers. It is advised to avoid harsh chemicals to clean the glass products. Harsh chemicals might corrode the surface of the products.
- Do not scrape the food leftovers with a metal utensil to avoid any damages on the product.
- Over stacking is not recommended as glass is a fragile material.
- It is not safe to use the glass products in oven and microwave. Additionally, direct flame, excessive heat or sudden temperature changes should be avoided for product safety.
- Always wash all the glass product before using for the first time.

Wood Care

- Before using for the first time, scrub with saline water, wipe off in time, and leave to dry. For daily maintenance, it can be wiped with olive oil.
- The surface of the wooden board can be damaged when knocked with harder materials.
- Solid wood boards have natural surface textures; therefore, they may differ in their appearances.
- Avoid soaking the wooden board for too long. To prevent bacteria growth, wash and dry it in time.
- Vegetables, meat, fruit, and other food materials can be easily processed on the wooden board. However, avoid too much chopping of hard food materials such as bones to prevent the wooden board from being damaged.
- It is not advised to leave wooden products in damp places for a long time.
- Avoid exposing wood materials to the sun for a long time. Increased loss of moisture could lead to wood cracking.
- It is recommended to use a soft cloth when cleaning. Never use metal wire for cleaning.
- You can wipe the surface with olive oil to extend the usefullife of wood products and remove knife traces.

Stainless Steel Maintenance

- Stainless Steel is much more resistant to staining or scratching than other metals, but contact with certain substances can trigger the process that causes staining and corrosion.
- Things to consider to avoid this process and maintain the quality of your cutlery:
- Storage Conditions: Do not store the products in humid and humid environments against the risk of corrosion. Do not expose to direct fire, this may cause marks on the product.
- Waiting for a long time with tap water, oils and cooking water containing acid, lemon juice, lime, and mineral salts may cause corrosion. Do not soak in chemical detergents such as bleach and other abrasive materials.

Product Care

Dishwasher Care

- We specially designed our products to withstand the harsh conditions of the gastronomy industry, including automatic dishwashing common to most businesses.
- Before washing cutlery, make sure that we remove all food residues before pre-rinsing, washing. Follow the manufacturer's instructions, especially regarding adding dishwasher salt, as excess salt can spoil it. Wash the cutlery as soon as possible, do not leave it in food residues for a long time.
- We recommend it to place the cutlery vertically with the heads of the dishwashers up, and not placing them too tightly helps to use water during washing. Remove the cutlery immediately after completing the washing/drying cycle and wipe them with a soft, dry cloth.
- If the cutlery is allowed to cool on its own in the dishwasher, traces of mineral salts, limescale and dishwasher salt residues can settle on the damp impact cutlery and set up to affect pitting and staining. Never wash stainless steel and silver-plated cutlery together in the same compartment of the dishwasher. The chemical values between the detergent and the steel can cause chasing in silver products. Do not use the rinse and soak programs for cutlery in dishwashers. This may cause damage to the cutlery from the soaking process.
- Electrical leakages can cause deterioration of arc carriers, tanks. To avoid this situation, make sure that your dishwasher has a grounding line.
- Never use metal wire or brush when cleaning forks, knives and spoons.

Product Care

Infinityglass

1. Product Description:

Our Polycarbonate glasses are specifically crafted for the Horeca sector, offering exceptional quality, durability, and elegance. They are the perfect choice for professional use in hotels, restaurants, and catering services.

2. Important Safety Instructions:

- Avoid contact with sharp objects to prevent scratches.
- Do not use aggressive cleaning agents or abrasives to avoid damaging the glass surface.
- Polycarbonate glasses are not suitable for use in the microwave.

3. Cleaning and Maintenance:

a. Dishwasher:

- Place the glasses in the upper rack of the dishwasher to avoid direct contact with other dishes.
 - Use mild dishwashing detergent and set the dishwasher to a low temperature for extended glass lifespan.
 - Remove glasses promptly after the wash cycle to prevent condensation.
- ##### b. Handwashing:
- Use warm water and mild dishwashing detergent.
 - Clean glasses with a soft sponge or cloth.
 - Rinse glasses thoroughly to remove all residues.

4. Drying:

- Dry the glasses immediately after washing to prevent mineral deposits.
- Use a soft cloth or let the glasses air dry.

5. Storage:

- Store glasses in a cool, dry place to prevent discoloration or deformation.
- Stack glasses carefully to avoid scratches.

6. Tips for Use:

- Avoid using sharp ice or other hard objects to prevent damage.
- Minimize contact with extremely hot liquids to prevent deformation.
- Adhere to recommended usage temperatures.

7. Technical Specifications:

- Temperature Resistance: Suitable for use in temperatures ranging from -40°C to 80°C (-40°F to 176°F).
- Impact Resistance: Resistant to impact and breakage under normal use conditions.
- Chemical Resistance: Designed to withstand exposure to mild detergents and cleaning agents.

Thank you for choosing our Polycarbonate glasses. We wish you successful use and remain at your disposal for any further assistance.

Product Care

- Before first use, ensure that you thoroughly wash the items using warm soapy water and a sponge scourer.
- Whilst the product is dishwasher safe, to help prolong the life of the product, we recommend to hand wash with warm soapy water after every use.
- We recommend that immediately, or as soon as possible after use, the product should be hand washed to remove excess foodstuffs as they contain salts, acids and fats which may cause corrosion
- Once cleaned, the product should be dried immediately to avoid prolonged contact with water or moisture which can cause corrosion or rusting

Do Not

- Do not use the product over direct heat/flame
- Do not scrub the vintage steel surface or brass handle with an abrasive sponge
- Do not use industrial detergent on the vintage steel surface or brass handles
- Do not leave the product wet as permanent water may stain the surface

Please be aware the brass handles will naturally tarnish over a period of time
